

PROFILE

Dr. El-Kour possess 25 years of clinical practice providing direct nutrition-focused physical assessment, diagnosis, care and monitoring to individuals and disadvantaged groups, including prevention and management of multiple macronutrient (protein and energy malnutrition) and micronutrient (iron, zinc, calcium, vitamins A, B, C, D and E, iodine, selenium, copper) deficiencies, fluid and electrolyte imbalances, drug-nutrient and food-related interactions, behavior change management, and diverse health and diet related challenges. Dr. El-Kour observes patient care, advises on best evidence-based practices, and customizes products and treatment protocols. She also provides direction and priorities for clinical nutrition services, including identifying enablers, partnerships and infrastructure required to best meet the needs of patient and population health and nutrition care.
